

recycle right

At EcoGroup, we're all about recycling right.

We proudly spearheaded the sustainable demolition industry in Australia. Using ground breaking technologies we provide innovative services including demolition, excavation and site remediation.

EcoGroup are the leading supplier of recycled bricks, pavers, crushed brick, briquettes and mulch.

We are on a mission to transform the demolition, construction, and landscaping industries by providing a green alternative.

At the core of everything we do, lies a deep commitment to sustainability. By maximising salvageable materials and minimising the waste that goes to landfill, we're preserving the environment for generations to come.

recycled brick & paver products

brick & paver products

We're loud and proud about our love for recycled bricks. So, it's no surprise that we're Australia's leading supplier.

Whether you're building, renovating, or repairing our extensive range means we'll have the right bricks for you. For landscaping projects, we also have a vast range of recycled pavers.

100% recycled

Why use recycled bricks?

Here's some of the many benefits:

- They're up to 20% cheaper than new bricks
- They preserve the environment - reducing waste to land fill and carbon emissions
- For period homes, they provide an immediate patina of age and charm not possible with new bricks

Our comprehensive service includes product advice, colour matching (for seamless renovations), and competitive pricing.

Bricks available include Rustic Reds, Coach house Greys, Clinkers, handmade bricks dating back to the late 1880s, rare Hawthorn Black and Browns, and builder's bricks suitable for rendering.

Our unique brick-cleaning process leverages sophisticated Danish technology (one of only two machines in the world), and guarantees your recycled bricks will look as good (if not better!) than new ones. Not only do you get distinctive aesthetics and character, you can also be happy that you've lessened your eco footprint during the building process.
